Yi Fangjian, Factory Craftsman, 23 years of Service, CSC Segment

易方坚，机械工，23年司龄，装备公司

在这个温暖向上的集体里，我从那个23年前没有机械制造经历的入职新人，成为今天一个适应工作需要的一线骨干;在平常的工作中，我经历了不少日夜兼程赶交货进度的艰辛，经历了不少风雨无阻为客户现场服务的艰难，我明白了公司的每一点进步、市场竞争中的每一次胜利，都与我们每一个员工息息相关

In this company full of warmth and dedication, I have grown from a young man, without any mechanical experience 23 years ago into today's frontline essential craftsman. I have experienced challenges of tight delivery schedule on the factory floor and agonies of servicing customers on-site under adversary conditions, which taught me that every progress the company achieves and every victory the company scores in the battlefield of market competition, are contributed by team work from each and every ordinary employee just like me.

I joined Anchun in the catalyst plant 8 years ago. Although I have never experienced the difficulties of starting-up in the early years, I have witnessed Anchun's relentless effort in recent years. From the memorable snapshot moments I experienced in our catalyst plant's development and expansion, I am more confident about Anchun's future prosperity.

Huang Jianxiang, Civil Engineer, 3 years of Service, Engineering Segment

黄建香·土建工程师·3年司龄·工程公司

2018年我休完产假重新回到工作岗位，我感到很焦虑，加上专业人事变动，工作压力大。领导和同事给了我很多鼓励和照顾。我明白了我不能选择退缩，只能勇敢向前。过完这段艰难时间再去看的时候，会觉得特别踏实。现在新的同事到岗了，我们可以很愉快的工作了，相信我们可以越来越好。

I came back to work in 2018 after my maternity leave. I felt enormous anxiety , and stress from work due to the short-handed situation in my group. My managers and peers all gave me lots of encouragement and flexibility. I realized I can't step back and this difficult time will give me meaningful fulfillment when I look back. Now new-hires have come and work is done more smoothly. I believe things can only get better.

Xie Fanghua, Manager, 10 years of Service and Hu Pugu, Assistant Manager, 16 years of service, CSC Segment

谢放华，经理，10年司龄；胡普谷，副经理，16年司龄 装备公司

装备公司是安淳目前营业收入和未来发展“重型马车”。我们在一线工作了十几年后，进入装备公司管理岗位。我们深感肩上的重任，不敢懈怠。安淳作为专用设备制造商，质量控制和进度控制系统是一个非常复杂和动态的过程。我们每天在与设计员工和制造员工协调合作中不断地学习和改进。优化的工作是一直不会结束的。

Our CSC Segment is the major carrier of Anchun's current revenue and growth opportunities. After more than ten years of frontline services, we were promoted to the managerial positions. The responsibilities that come with the position keep us on the move all the time. The quality control and schedule control system of a proprietary equipment manufacturer like Anchun is a very dynamic and complex process. We learn and improve everyday together with the design engineers and factory workers in this never-ending optimization process.
